Septic PSYchos

First of all the history of the band:

They started as the S. Psychos in 78with MICK CHIZ,HAWKY and a thumbless guitarist called MALK,and not surprisingly got nowhere.
When RILEY joined us in 8I we started giging and took the band more seriously.Riley although a good guitarist has been nothing but trouble since he joined the band .He spent most of the first I8 months with the band in Assesment centres and homes, whenever we had a gig he would have to break out and we would try and finish the gig before the police came for him.
If you look at their lyrics that CHIZ writes you will notice that they are not very political.we have about 4 songs that are serious,a couple about after the bomb called I Unlucky Survivers and Rotting Together.

One track about the police called Kill the bill,which as a matter of fact was going to be on the 'Punk dead Nah mate'complilation but Crass(Who helped to produce it)said it was to controversial,so the song called 'the thatcher'had to be put on instead.
Other charming titles include:Eaten by maggots,Nosepicker(They tell me it is about a kid who picked his brain)P:::head,and last and least Psychopath.S.p.go on to say that they are not a band that force issues like C.N.D.etc.THEY BELIEVE IN HAVING A GOOD LAFF.

Here is the lyrics to UNLUCKY SURVIVERS :

I/As the dust settles like snow in our hair/Brought by the breeze of unstopable death/Brought by dictaters who just couldn't care/We can do sweet f.a. as we draw our last breath.

CHORUS : The blast victims are thelucky ones/Their life ends quick by the bomb /Unlucky are the survivers who turn insane/Watching their loved ones die in pain.

2/ Barren the land and barren our minds/Why should we think when were so full of sorrow/What can we do when the babywants feeding/Its whole life ahead yet it wont see tomorrow.

CHORUS:

3/Look at the baby its skins comming off/Endless crying for the son is dying/The big nobs are cosy in their special shelters/We cant see their faces but they should be sighing.

THERE IS NOTHING TO COME BACK TO.

SEPTIC PSYCHOS

Exclusive Interview with S.P.

I/ Did you get owt off the two tracks on the comp album?

Mick: Although the band gained quite a bit of publicity we didn't gain a penny. Marcus Featherby was supposed to cover the recording costs but he never did.

2/ How did you get to be on it?

Mick We did a four track cassette on our very own"Brain Splat" lable (a one off) we recorded it at Hologram Studios Stockport.We had copies made and sent them to recOrd commpanies and locally.Marcus got hold of a copy of it Througth a shop called"Rat Records". Afew dats later he wrang us up a couple of days later and asked us to see him.He put us on the L.P.(He was immpressed in the way we brought it out ourselfs)

3/Were you pleased with the sound production on the comp?

Mick: It was adequate,i thought it sounded different to anything else on the L.P. it stood out ,good or bad iwas pleased with it.

4/Have you had any other offers off record commpanies?

Mick We had an offer from a bloke in Blackpool from "Sane" records,he wanted us to put on an L.P. called "on the street" but he wanted money we just didn't have ,i am glad we didn't take him up cause we didn't see it in any shop or music press.We had the usual letters back from the companies like Riot City, and No Future, but they just said nice music but no thanks i.e a real fob off.

5/How many gigs have you done? and who with?

We have done many gig localy but none out of the area the furthest we have played was the outskirts of Nottingham.Weve played with Riot Squad Flux of pink indians,MAU MAUS(great band). We were supposed to support English Dogs but it was cancelled. Sheffield use to be the big place for gigs but now everyone seems to have lost interest.

CORPORAL - PUNISHMENT.

I'm in a band from Grimsby South Humberside CorporalPunishment. We would like to do gigs in and around the Humberside ,Lincs and Yorkshire area.Can anyone help us to get gigs? What we ask for is just transport costs to be paid for.Either write to me(address at the front) or phone me(ANDY) on Grimsby 827II3.Cheers and all the best. ANDY.

CRIMINAL JUSTICE

THE SYSTEM IS CRIMINAL JUSTICE.

Criminal Justice were formed at the begining of August 1982 when Brooky and Nobby quit the Infected. They got down to practicing straight away and after just a few practices things were looking good for the band. Then the first of many disasers happened. They were thrown out of the practice hall due to redecorating, and it was a while they found a new place to practice. This place didn't last long either and it wasn't until March 83 that they got down to practicing again. Then of course the curse struk them again. Not to be put down they went into the studios and recorded their first demo. 4 trax were laid down Lebanese Lifestyle, Victim of Religion, Frenzy and the Race is on. The first gig came soon after and the band went down really well, but regular practicing was on the cards. Now the band have regular practices at the Xpozez practice spot. New material is being written all the time, and they are now ready for gigs. If you can get them gigs anywhere anytime then don't hesitate to ask. They will play anywhere. (No funny people writing in with gigs in Australia).

Criminal Justice are a part of a flourising Huddersfield scene. Other bands like Xpozez, The Invected and All Over The Carpet. The band would like to point out that they are against all forms of mindless violence. Also they do not like all the religious sects.

Up date info : C.J. are going into the studios on Dec 17, to record a new demo it will be £1, from Brooky address at bottom of page. It will be called "Let Justice Be Done". it includes lyric sheet sleeve info and badge. The band will have done 3 Gigs probally more by the time you read this. After xmas they will be a 5-piece band.

CORPSE

CORPSE

Corpse were formed in late August I982 and the reason was to ease the boredom,and to play punk.The main reason was to spread the word and message of Anarchy Peace and Freedom as it is something the lads are really in to.The line up now is WEEDY-vocals,GINGE-drums,LANX-bass,and of course HIBBS-guitar.Before thisRICK WAS stand in on bass he had the two fingered approach.They played their first gig with a two bass line up supporting T.F.A.and DIRT.AlsoHilly joined for the third gig on guitar . By the fourth gig HIBBS came on the scene and formed the present line up.Corpse have done gigs with many bands such asD.I.R.T. XPOZEZ,DEAD MANS SHADOW SUBHUMANS,SEARS,XTRACT,and many other sma ll local bands. Thanx to lanx for info.

this mag can only run with your help. If your in a punk or Skin band send me what you can and i'll put you in O.K. cheers

SELF ABUSE

Self ABUSE were formed inJan 82 and the line up is as follows :

Andy,bass,lead vocals
Dave,rhythm guitar
Roger,lead guitar
Steve,drums,

The line up is still the original one and looks to be staying that way cos the band means alot to all of us.We practiced regularly and eventuaiiy we managed to get some songs together.In October 82 we went into a small recording studio in Bournmouth(Studio 95)to record our first demo tape.It contained 8 tracks and they were:Soldier,Beirut,Spare a thought,Ulster,State of mind,Destroy your nerves,Torn apart,and Pills.It was a pretty bad production so we did not bother the record companies with it.We did manage to sell over I00 from the local shops though.Our first gig was played about 2weeks later in a iocal pub(TheSloop) we got that gig by phoning up and saying we were a HM/Rock band (cos if you mention punk down here you have no chance)But when we got there we realised it was a mistake cos there was only about 20punks and about I50/200 Hells angels,bikers etc.As you can imagine we did not go down too well with them and we had a bit of trouble with them afterwards,and the bounces had to step in .we managed to get away alright though ,and we have not been near there since.After that we were a bit put of giging,we continued practising and writing new songs.Wewere suposed to have a gig in Jan 83 but the pigs stopped us cos of illegal advertising(i.e. we plastered the town with posters).We were not prosecuted but they got all our names etc.so we have to be very careful about advertising now or we will just get banned from everywhere.

In March 83 we went back in to the Studio (Arnys Shack)to record our second demo it contained I2 tracks ,both old and new they were: SelfAbuse,Teenage,Soldier,Derelict,State of mind,So cold,Fire of London,Beirut,Prostitute,Torn apart,Your names,and Pills.It was a lot better than the first and we sent a few off to the indie labels.

While we waited for a reply we played a few gigs in various halls and clubs with bands likeSubhumans,Cult Maniacs,Butcher ,Shock To The System,Amebix, Fall Out,Admass,Last Orders,Manic and The MadAre Sane. We went down really well at all the gigs with no trouble,and have now got a really good following down here..... Acouple of months ago we received a phone call from 'Radical Change' records ofNorwich saying they were really impressed with the tape and would we like to do a record for them.Of course we agreed and recorded our first single(3 songs) in September 83.the tracks that are on it are:Soldier,Bomb Scare,and S tate Of Mind,it will be released in Jan 84 so you better buy it. It will sell for 99p.look out for it in the shops....they are hot.

OTHER STUFF:They have 4 tracks on xcentricnoise tapes 6 it should be out before Xmas o.k.

Xoset uk

Xoset uk :The present line up started practising in Nov 82 but the idea of forming a band started a long time earlier,but with out much really happening.They started off with many different names,E,G,Acid,Vicious Attak,Evasive Action,but finally settled fo ed forXoset uk because of the falklands war and because alot of our lyrics are about war.When they first started they had little ideal of how to use their instruments but they have gradually learnt and now have some good tunes.They do both slow and fast songs. Most of the songs are writen by bone idol but some are written by magilla.They stress they are:Anti-War,System,Religion,and vivisecting.Up to now they have not done any gigs,but another local band is tring to get one together for us.Up to now their se -t consistsof I6 songs which lasts for about half an hour.The band have recently been thrown out of their practice hall.Brooky is standing in on bass.

They have 4 trax on"Discredit our system"tapes, but the sound quality is not very good.Also they have 2 Trax on a compliation(whoops)tape called Harmonious Dischord from the lad who runs Damaged fanzine.

Line up and influences;

Bone Idle;Vocals:Crass and Varukers.
Magilla;Disorder,Anthrax,New Order.

PAX

THANX TO Jim FOR SENDING the info down.

John Wobble

Eddie

Jim

"PAX"

"Pax"was formed in June 1983 and has therefore,been together for five months. The band members are John-vocals,Jim-Drums,Eddie and Wobble bass and lead.Eddie and Wobble share the instruments so that if Eddie comes up with a good tune Wobble will put a bass to it,and vice versa.This seems to work okay,but hopefully one of them will play bass permanently.We try to produce a wide range of musical sounds,to the best of our playing ability.I would like to point out that we are not brilliant musicians but we think we are slowly progressing.We reject all labels as far as possible, for example Punk and New Wave, because they just serve to restrict you. If you just churn out one type of music, when the time comes that you feel you need a change in your musical direction, people just say that you are "cashing in" or "selling out".

Lyrics

The main lyrics are written by John, but I (James) also write a few. They cover many subjects; for example, anti-nuclear, animal rights, anti-war, government, the syster, in fact anything we feel strongly about.provides inspiration for a song. Hopefully, by expressing our own angers and fears through songs, we might make people think for themselves a bit more.

John and I are both vegetarians and Eddie is thinking about becoming one. John has formed a local animal rights group and as a result we were asked for an interview by Radio Furness to discuss this subject. John and I regularly attend our local Peace Group meetings and go on most of the C.N.D. demos. John is a contact for the British Union for the Abolition of Vivisection (B.U.A.V.) and I am a contact for Y.C.N.D.

Pax Products

Pax Products is an offspring of "Pax", the group. Our enterprises so far are a Fanzine called "The Objector", which includes articles on C.N.D., animal rights, anarchy, and features on bands, and a gig organised for a local band called "Peace of Mind", which unfortunately was badly attended.

Plans for the future

A studio demo tape, further publication of Fanzines and a compilation tape giving small bands such as ourselves a chance to be heard.

"Pax" believes in world disarmament, human and animal rights, anarchy (trust, co-operation, honesty).

Dirge are a hard core punk band from Leicester, they sing about many different things. Most of their songs are played fast because they say they dont like the slow depressing type of songs, but they also say that their lyrics are important as well. They are influenced by most of the hard core type bands. Dirge have done a few local gigs and soon plan to do more away gigs.. If you wish to hear their 7 track demo then send 50p and a blank tape or just £1. (In both cases send a SAE). cheers.....

NOW A INTERVIEW WITH THE BAND PAX

1/ OBZINE-Are you all self taught ?
Wob-Yes with the help of various tutor books,ED-Yes but i have had h-elp off my mates which got me started,James-apart from a few ~~lessons~~ lessons off a cabaret drummer(who charged)£5 an hour,so i gave them up

2/ OBZINE:How easy was it starting off.?
Hard but we managed over a long period of time..With out the fairly good equipment we managed to get on H.P.terms

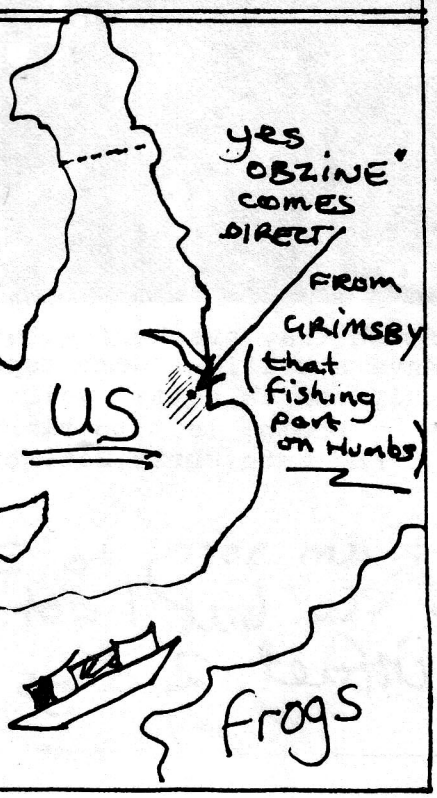
3/ OBZINE :Have you a good following.
NO not really ,but we do not actually force our selfs on people WHENpeople hear us they do not actually say we are bad,but not many people say anythirg at all.In our area there are not many punks its just mainly people who settle down.

4/ OBZINE :Plans for the future.
To do a studio demo and get more gigs.BUTmost important to put more time in t in to our lyrics andmusic..

5/ OBZINE: VIEWS ON THE RECORD SEEN?(commersial + indie)

Jim EVERYONE KNOWS THAT commerial record lables are out just for the "cash". So why do people continually sign up to them? The majors make me sick how they restrict and tell the bands what they can + can't do. T.O.T.P. is just another part of this "rip off" industry (except John Peel whoose a good bloke!). This is why the more D.I.Y. + indie lables there are the better. Hopefully one day we will put the majors out of business.

In every issue of this "few bits of paper thrown together" I would like to study a persific area and mention all the "new" bands that come from there! If you wish to write about your area, drop me a line with details. And if you are wondering where I got this ideal from it was of course that mag called Huddersfield sucks" run. by Tez + co.



See you in ISSUE II
